

ADHD / AS ?

GUEST SPEAKER: STEVE CHALLEN

Originally diagnosed 21 years ago, he has successfully established a career in the I.T. industry and has three children who are growing up with the same issues.

Following recent requests for information we will be looking briefly at the similarities of ADHD to Asperger's Syndrome (AS) and helping parents understand more fully the issues faced by their children, and the professionals to endeavor to help them.

Open Discussion Forum

Our talk is followed by the opportunity for open forum discussion to tackle this and other burning issues parents and professionals are facing.

One to One Forum

After the open discussion we will now be providing opportunity for one to one or small group discussions.

“ADHD has many positives, it's not just negative. We need to highlight these positives and help children reach their full potential.”

Support Group Aims & Objectives

We are a working group, of professionals and parents with experience of ADHD, offering information, signposting, a friendly ear, and most importantly understanding to families living with the consequences of ADHD. **ALL WELCOME!**
